

Pagan Solidarity

Pagan Solidarity is a coalition of Pagan elders and leaders formed in response to the attacks on religious liberty and diversity posed by some factions of the current US government, and backed by far-right groups, who are poised to reshape the United States into an authoritarian theocracy. This will negatively impact religious diversity and potentially lead to a period of serious and dangerous persecution of minority religions.

Pagan Solidarity is dedicated to fostering unity, support and advocacy within our diverse Pagan community. We recognize the many spiritual paths that fall under the modern Pagan umbrella and seek to create a space where all traditions, practices, and identities are respected and uplifted. We invite you to join us.

Our purpose is to build a strong, interconnected network that empowers individuals, strengthens local and regional groups, and amplifies our collective voice in the broader world. To achieve this, we:

- Create opportunities for Pagans of all paths to connect, collaborate, and support one another.
- Provide resources and guidance to strengthen local groups and facilitate community-building efforts.
- Advocate for religious freedom, social justice, and the fair representation of Pagan beliefs and practices.
- Offer education and outreach to dispel misconceptions and promote understanding of Pagan traditions.
- Facilitate mutual aid efforts to support members in times of need and foster a culture of care and solidarity.
- Build relationships with allied communities and movements to work toward shared goals of inclusivity, environmental stewardship, and social equity.

Magickal Resistance:

The coalition calls for “magickal resistance” against perceived threats, particularly Christian Nationalism.

Community Engagement:

Pagans are encouraged to be active, supportive members of their communities by volunteering, participating in local initiatives, and joining civic organizations.

Web Presence:

The coalition has established a web presence where additional information is available. For more information, visit our website:
